

Our Mission

AfterOurs Urgent Care wants to provide you with the right care, right now!

Our Mission: To provide you, your family, and the communities we serve, with high quality, affordable, and efficient acute urgent care, when your primary care physician, or family doctor is unavailable.

Our board certified family physicians, nurse practitioners, and physician assistants treat adult and pediatric non-life and limb threatening injuries and illnesses, and offer an excellent alternative to costly and time consuming emergency room and hospital visits. Our dedicated providers and staff will treat you with respect and compassion, and will promptly forward your treatment records to your family physician to ensure that you receive the best continuity of care possible. Lab, X-ray, EKG, and IV fluid hydration in our Colorado clinics, are all on-site to maximize the efficiency of your visit.

We firmly believe that when each patient is treated in the place of service that is most appropriate for their injury or illness, the patient, and the entire healthcare delivery system benefit! Avoid the ER – Save time and money with urgent care. Our providers are available now to address your immediate needs.
