AfterOurs Urgent Care works with respected, board certified family physicians to provide you with high-quality, efficient urgent care services at all of our clinics. You'll be treated with compassion in any of our state of the art urgent care centers, where we provide on-site lab, x-ray, EKG, and even IV fluid hydration to make your treatment outcomes the best they can be. We'll even forward your treatment records to your family doctor through our electronic medical records (EMR), to ensure you receive the best continuum of care possible.

We value your health, your time, and your money!
